

ROHN EQUIPMENT SHELTER ACCESSORIES

Part Number	Description	Wt.
Generator With Automatic Transfer Switch:		
a)	Generator with LPG Gas Engine, Controller, Block Heater, Battery Charger, Rack and Battery, Secondary LPG Regulator, Vibration Mounts and Circuit Breaker.	
b)	Automatic Transfer Switch with Adjustable Time Delays for Power Outages and Return to Utility Power, Engine Cool Down Timer, Exerciser, Phase Sensing Relays and Test Mode Capabilities.	
c)	Complete Installation and Checkout Including Exhaust Piping with Thimble, Wiring, LPG Piping through Wall with 3/4" Female Connection, 20" Air Intake Louvers, 20" Exhaust Fan and Weather Hoods.	
ESGEN10	10 kw Generator with 100 Amp, Single Phase Automatic Transfer Switch	1070
ESGEN10/3	10 kw Generator with 100 Amp, Three Phase Automatic Transfer Switch	1070
ESGEN15	15 kw Generator with 100 Amp, Single Phase Automatic Transfer Switch	1070
ESGEN15/3	15 kw Generator with 100 Amp, Three Phase Automatic Transfer Switch	1070
ESGEN20	20 kw Generator with 100 Amp, Single Phase Automatic Transfer Switch	1085
ESGEN20/3	20 kw Generator with 100 Amp, Three Phase Automatic Transfer Switch	1085
ESGEN25	25 kw Generator with 150 Amp, Single Phase Automatic Transfer Switch	1120
ESGEN25/3	25 kw Generator with 150 Amp, Three Phase Automatic Transfer Switch	1120
ESGEN30	30 kw Generator with 150 Amp, Single Phase Automatic Transfer Switch	1170
ESGEN30/3	30 kw Generator with 100 Amp, Three Phase Automatic Transfer Switch	1170
ESGEN36	36 kw Generator with 200 Amp, Single Phase Automatic Transfer Switch	1435
ESGEN36/3	36 kw Generator with 150 Amp, Three Phase Automatic Transfer Switch	1370
ESGEN45	45 kw Generator with 225 Amp, Single Phase Automatic Transfer Switch	1935
ESGEN45/3	45 kw Generator with 175 Amp, Three Phase Automatic Transfer Switch	1900
Generator: (Same as above except with diesel engine)		
ESGEN10D	10 kw Generator with 100 Amp, Single Phase Automatic Transfer Switch	1178
ESGEN15D	15 kw Generator with 100 Amp, Single Phase Automatic Transfer Switch	1178
ESGEN20D	20 kw Generator with 100 Amp, Single Phase Automatic Transfer Switch	1247
ESGEN25D	25 kw Generator with 150 Amp, Single Phase Automatic Transfer Switch	1323
ESGEN30D	30 kw Generator with 150 Amp, Single Phase Automatic Transfer Switch	1376
ESGEN36D	36 kw Generator with 200 Amp, Single Phase Automatic Transfer Switch	1787
ESGEN45D	45 kw Generator with 225 Amp, Single Phase Automatic Transfer Switch	2276
ESGEN45/3D	45 kw Generator with 175 Amp, Three Phase Automatic Transfer Switch	2167
Generator Preparation: (Prepare Shelter for Installation of Generator by Others)		
ESGENPREP/1	For Up To and Including 25 kw Generator (Includes Reinforced Floor, Two 20" Motorized Intake Louvers, and 20" Exhaust Fan with Gravity Louver)	
ESGENPREP/2	For Greater than 25 kw Generator (Includes Reinforced Floor, Exhaust Thimble, Additional 20" Motorized Intake Louvers, and 20" Exhaust Fan with Gravity Louver)	
Generator Installation: (Install Generator Set and Automatic Transfer Switch Supplied by Others)		
ESGENINST/1	For Up To and Including 25 kw Generator (Includes All Items Under ESGENPREP/1 Plus Furnish and Install Fuel and Exhaust Piping, Install Automatic Transfer Switch and Wiring, and Install Generator Set.) (Check-out and start-up by CUSTOMER at either Rohn Plant or in the field.)	
ESGENINST/2	For Greater than 25 kw Generator (Same As Above Except Includes All Items Under ESGENPREP/2)	
State Approvals, Insignias, and Sealed Drawings:		
Certain states or other municipalities may require that equipment shelters be approved by regulatory authorities and/or have a state insignia affixed to the equipment shelter when completed. Some states/municipalities may require special drawings and/or calculations to be sealed by a professional engineer licensed in the state of destination, or require additional engineering drawings or services to satisfy local requirements for permitting purposes. These services are not included in the standard prices and may or may not be available from Rohn. The amount of extra charges is available at the time of shelter quotation if notice is given of the requirements or will be charged as an extra, if required.		
Field Services:		
Many on-site services are available such as: Foundation Design and Installation, Shelter Assembly for Two Piece Units, Delivery and Unloading, Field Start-up Services, Yearly Maintenance and Inspection. Contact Rohn Sales Department for additional information.		

Shelter accessories cannot be supplied unless equipment shelter is purchased from Rohn.

Prices available upon request.
